March 2015

Fond Parisien, Haïti

## Vocational School

*We, Wismith and Rebecca, want to publicly thank God for his goodness and for His faithfulness to us and to Redeemed Vocational School as we celebrated 3 years of marriage on November 26. In the last 3 years of our marriage and 2 years of classes we have watched God move over and over. When we got married we didn't know if we would have enough to live on much less start a school. But we had a dream and a trust in God that we were in His will and that He would provide. So many times we have watched God answer prayers, and then we've watched him answer prayers we didn't know to pray. And so we sing His praises for His amazing Redemption and for his love and interest in each of our lives, and of course the lives we strive to touch here in Haiti.*

*Please praise God with us and also continue to pray for wisdom and strength as we continue to go forward.*

*Wismith & Rebecca Joseph*

*We had a great trip to the States this year. We enjoyed connecting with so many of you again as well as meeting new people. We've come back encouraged and renewed! We started classes in December. Pray with us for the coming school year that we would be effective in empowering the young people of Haiti.*

# Graduation

*In August we had a graduation for the computer class. So many students have worked hard. We always love the opportunity to step back and see how much our students have learned! They love the opportunity for songs and skits and of course the food at the end.*

*In the past year we have had a total of 70 students enrolled in the different classes here at Redeemed.*

# *Construction Progress*

We poured the cement roof on the Mechanic shop apartment in August before we left for the States. The Shop building is now waiting on Garage doors, electrical and plumbing work, lots of finishing work in the apartment, and of course tools so that we can start classes. Pray with us that we would be able to reach that goal in the coming year.

# Work Teams

We started 2015 with a work team from Ohio. Most of these young people had helped with construction in 2014 so we were happy to see them again. They did a great job building steps – lots of steps- and also the wall behind the shop.

*In February we welcomed a work team from Missouri who built the tool vault inside the shop in preparation for storing tools when we begin classes.*

# *Current Classes*

In December we re-opened the computer class and in January we reopened the sewing classes. Right now we are running two computer classes, beginning and advanced, and also two sewing classes, beginning and advanced.

*Praise the Lord with us!!!!!!*

- ◆ For students!
- ◆ For His continued provision for the mechanic shop
  - ◆ For the work teams
- ◆ For the finances to run the school

*Pray with us....*

- ◆ For wisdom as we grow
- ◆ For strength and patience
- ◆ That lives would be impacted
- ◆ That the kingdom of God would be greatly expanded here in Haiti

*Please accept our sincere apologies for the lateness of this newsletter.*

\$ \_\_\_\_\_ *for the school general fund.*

\$ \_\_\_\_\_ *for the shop building & equipment.*
